Technical data

Article type	Wall sleeve	Outer diameter	190 mm
Brand	PRIME flow	Inner diameter	151,6 mm
Material	stainless steel/plastic	Connection diameter	150 mm
Mounting/Fixing	plug-in system	Suitable wall thickness	max. wall thickness 550 mm
Diameter	core hole drilling in nominal Ø 162 or 164 mm	Blind version	with backpressure shutter
Shortenability	can be shortened to 220 mm	System dimension	150
Field of use & application	Outside	Output drive	round
Shape	round	Ventilation system	COMPAIR PRIME flow®
