

PRODUCT INFORMATION TopSwing

TopSwing standard installation

- The bracket is mounted at a specific height according to the installation instructions so that the TopSwing can be optimally used as an additional table.

TopSwing as a high table version

Additional height adapter required: _____

- Can be mounted at any position on the wall to use the TopSwing as a high table as standard.
- Dimensions are to be observed in accordance with the installation instructions.

Application and advantages:

Space-saving design:

Additional table stored on the wall or on a shelf.

Single-handed operation:

Release the lock with one hand and the TopSwing slides down gently.

Child-safe:

Safe, cushioned opening and a release point that is out of reach for children.

Self-supporting:

Legroom, as no bothersome feet are required for the function.
