✓ Accessory

Cox Cick® is a manual foot pedal that enables effortless access to the Cox® Base and Cox Clan® waste collectors. Thanks to the ergonomically pleasantly designed pedal position, the waste system opens completely with little force. After operation, the opening mechanism automatically returns to its original position with the aid of a spring. In this way, near-silent operation is guaranteed when opening and closing. The assembly is simple and quick due to two moulded lugs with position fixing. The necessary drilling points are easily found by means of a plastic assembly aid.

- bracket projection on 16 gauge front 34 mm
- bracket projection on 19 gauge front 31 mm
