

PRIME flow GREENflow filter box

Product number: 4043097

Configuration: black matt

Configuration options

4043075 | grey

4043097 | black matt

✓ Filter box

✓ simple maintenance/access

Recirculating air filter system for filtration of cooking vapours when using a downdraft hood/hob ventilator.

- high flexibility in the positioning of the filter boxes
- suitable for base heights from 100–150 mm (grid can be shortened)
- guide vanes provide for uniform distribution of the air flow
- suitable for almost all common downdraft hoods/ hob ventilators, with or without own activated carbon filter
- simple maintenance/access
- integrated base foot (optionally usable, load capacity up to 300 kg)
- aerodynamically optimised blades of the ventilation grid (anodised aluminium) minimise the pressure loss
- maximum outlet cross-section provides for barely perceptible air movement

Note:

The GREENflow OMEGA filter needs to be ordered separately if required.

For good ventilation results, the use of at least two boxes is recommended.
