

## Press Release

### Naber receives BMK Innovation Award

Every two years, the Bundesverband Mittelständischer Küchenfachhandel (Federal association of medium-sized kitchen retailers) awards the BMK Innovation Prize to companies that distinguish themselves with particularly innovative products. In 2023, the top winner in the kitchen accessories category was Naber with the Turno Solo faucet (design by tbSTUDIO, Berlin). The award ceremony took place at the beginning of May at the international trade fair küchenwohntrends in Salzburg.

"We are especially delighted to receive this award because, in addition to the BMK board and a press jury, the specialist trade also voted for it," says Jürgen Heilen, Marketing Manager at Naber. The strikingly simple faucet has established itself in the trade and is recommended to kitchen users as an outstanding product.

With its elegant design language, Turno Solo is reduced to the essentials and features harmoniously slender aesthetics in a choice of stainless-steel finish or chrome. It convinces with its outstanding ergonomic ease of use. Thanks to the head control at the end of the high L-shaped swivelling outlet, the water flows behind your hand instead of next to your forearm. A laminar aerator is integrated for smooth, low-noise water flow.
