

PRIME flow Base ventilation grid 1

Product number: 8033012
Configuration: W 84 mm, L 480 mm, silver

Configuration options
8033012 | W 84 mm, L 480 mm, silver

✓ Ventilation grid
✓ surface mounting

Slatted ventilation grid in aluminium. Can be used as a return flow opening in case of circulating air units positioned in the base. The necessary cross-section area for the passage of air specified by the hood manufacturer is to be observed! This results in the number of grids required. Installation is carried out by screwing in front of the base cut-out.
— ventilation diameter ca. 265 cm²
